## In Numbers

627,000 people assisted

in May 2022

US\$ 14.2 m estimated cash-based transfers made

US\$ 104.5 m six months (June-November) net funding requirements

## Operational Context

Jordan is an upper-middle-income country, with a population of 11 million, 74 percent of whom are below the age of 30. Jordan is also a resource-poor, food-deficit country with dwindling energy and water resources and limited agricultural land. It carries the social, economic and environmental burden of hosting around 675,000 Syrian and 87,000 refugees of other nationalities registered with the United Nations High Commissioner for Refugees as of April 2022.

The results of WFP's Food Security Outcome Monitoring (FSOM) of quarter one 2022 showed that almost 81 percent of refugees in communities and 90 percent of refugees in camps are either food insecure or vulnerable to food insecurity. Female-headed households, small households, and households with disabilities have disproportionately poor food consumption. According to the Department of Statistics, Jordan's unemployment rate was 23.3 percent during the fourth quarter of 2021; a decrease of 1.4 percentage points from the fourth quarter of 2020. Unemployment is 21.4 percent among men compared to 30.7 percent among women.

Through the Country Strategic Plan (2020-2022), WFP Jordan is rebalancing its portfolio more towards Jordan itself, in line with priorities linked to the 2030 Agenda. The focus is on strengthening capacities of national institutions, strategies and programmes, in addition to providing support for livelihoods to deliver transformative and equitable results for Jordanians and refugees bypassed by socio-economic opportunities. WFP has been present in Jordan since 1964. WFP is preparing its next five-year CSP (2023-2027) under the same commitment to supporting vulnerable people,

Population: 11.17 million

2019 Human Development Index: 102 out of 188

Income Level: middle income

Chronic malnutrition: 7.8% of children between 6-59 months

## Operational Updates

- In May, WFP provided food assistance to around 464,300 vulnerable refugees residing in camps and host communities through cash-based transfers. Most refugees come from Syria, with a minority from Iraq, Yemen, Sudan, Somalia and other countries.
- WFP Jordan is preparing the roll out of mobile money to help refugees in communities starting July 2022. The pilot programme will be launched in five Governorates (Aqaba, Karak, Balqa, Tafileh and Zarqa). Information sessions will be followed by Focus Group Discussions (FGDs) concentrating on how women can use mobile money.
- In May, WFP continued its support for the National Aid Fund (NAF) by completing the validation of eligibility of 110,000 vulnerable Jordanian families enrolled into the NAF Programme for cash assistance. In May, NAF successfully validated around 44,000 households through virtual home visits arranged by WFP's contracted service provider out of more than 71,000 visits. 38,000 physical visits were conducted in March and April. Furthermore, financial literacy information sessions have also been delivered to around 200 households meaning that nearly 3,250 households have access to this service.
- In collaboration with the Ministry of Social Development (MoSD) and the NAF, WFP organized a two-day social protection exchange workshop with both Palestinian and Jordanian delegations on 18 and 19 May. This south-south cooperation represents an opportunity for both countries to share knowledge at Ministerial level on successful initiatives in the area of social protection given the similar local context of both countries.
- School feeding activities resumed in May. In Azraq and Za'atari camps, WFP distributed date bars to around 28,000 students while in communities, WFP distributed date bars to around 136,000 students. Additionally, WFP distributed 405,000 healthy meals to 27,000 students in Madaba and South Shoneh.
